The (un)scientific path towards a software factory

Grzegorz Ziemonski

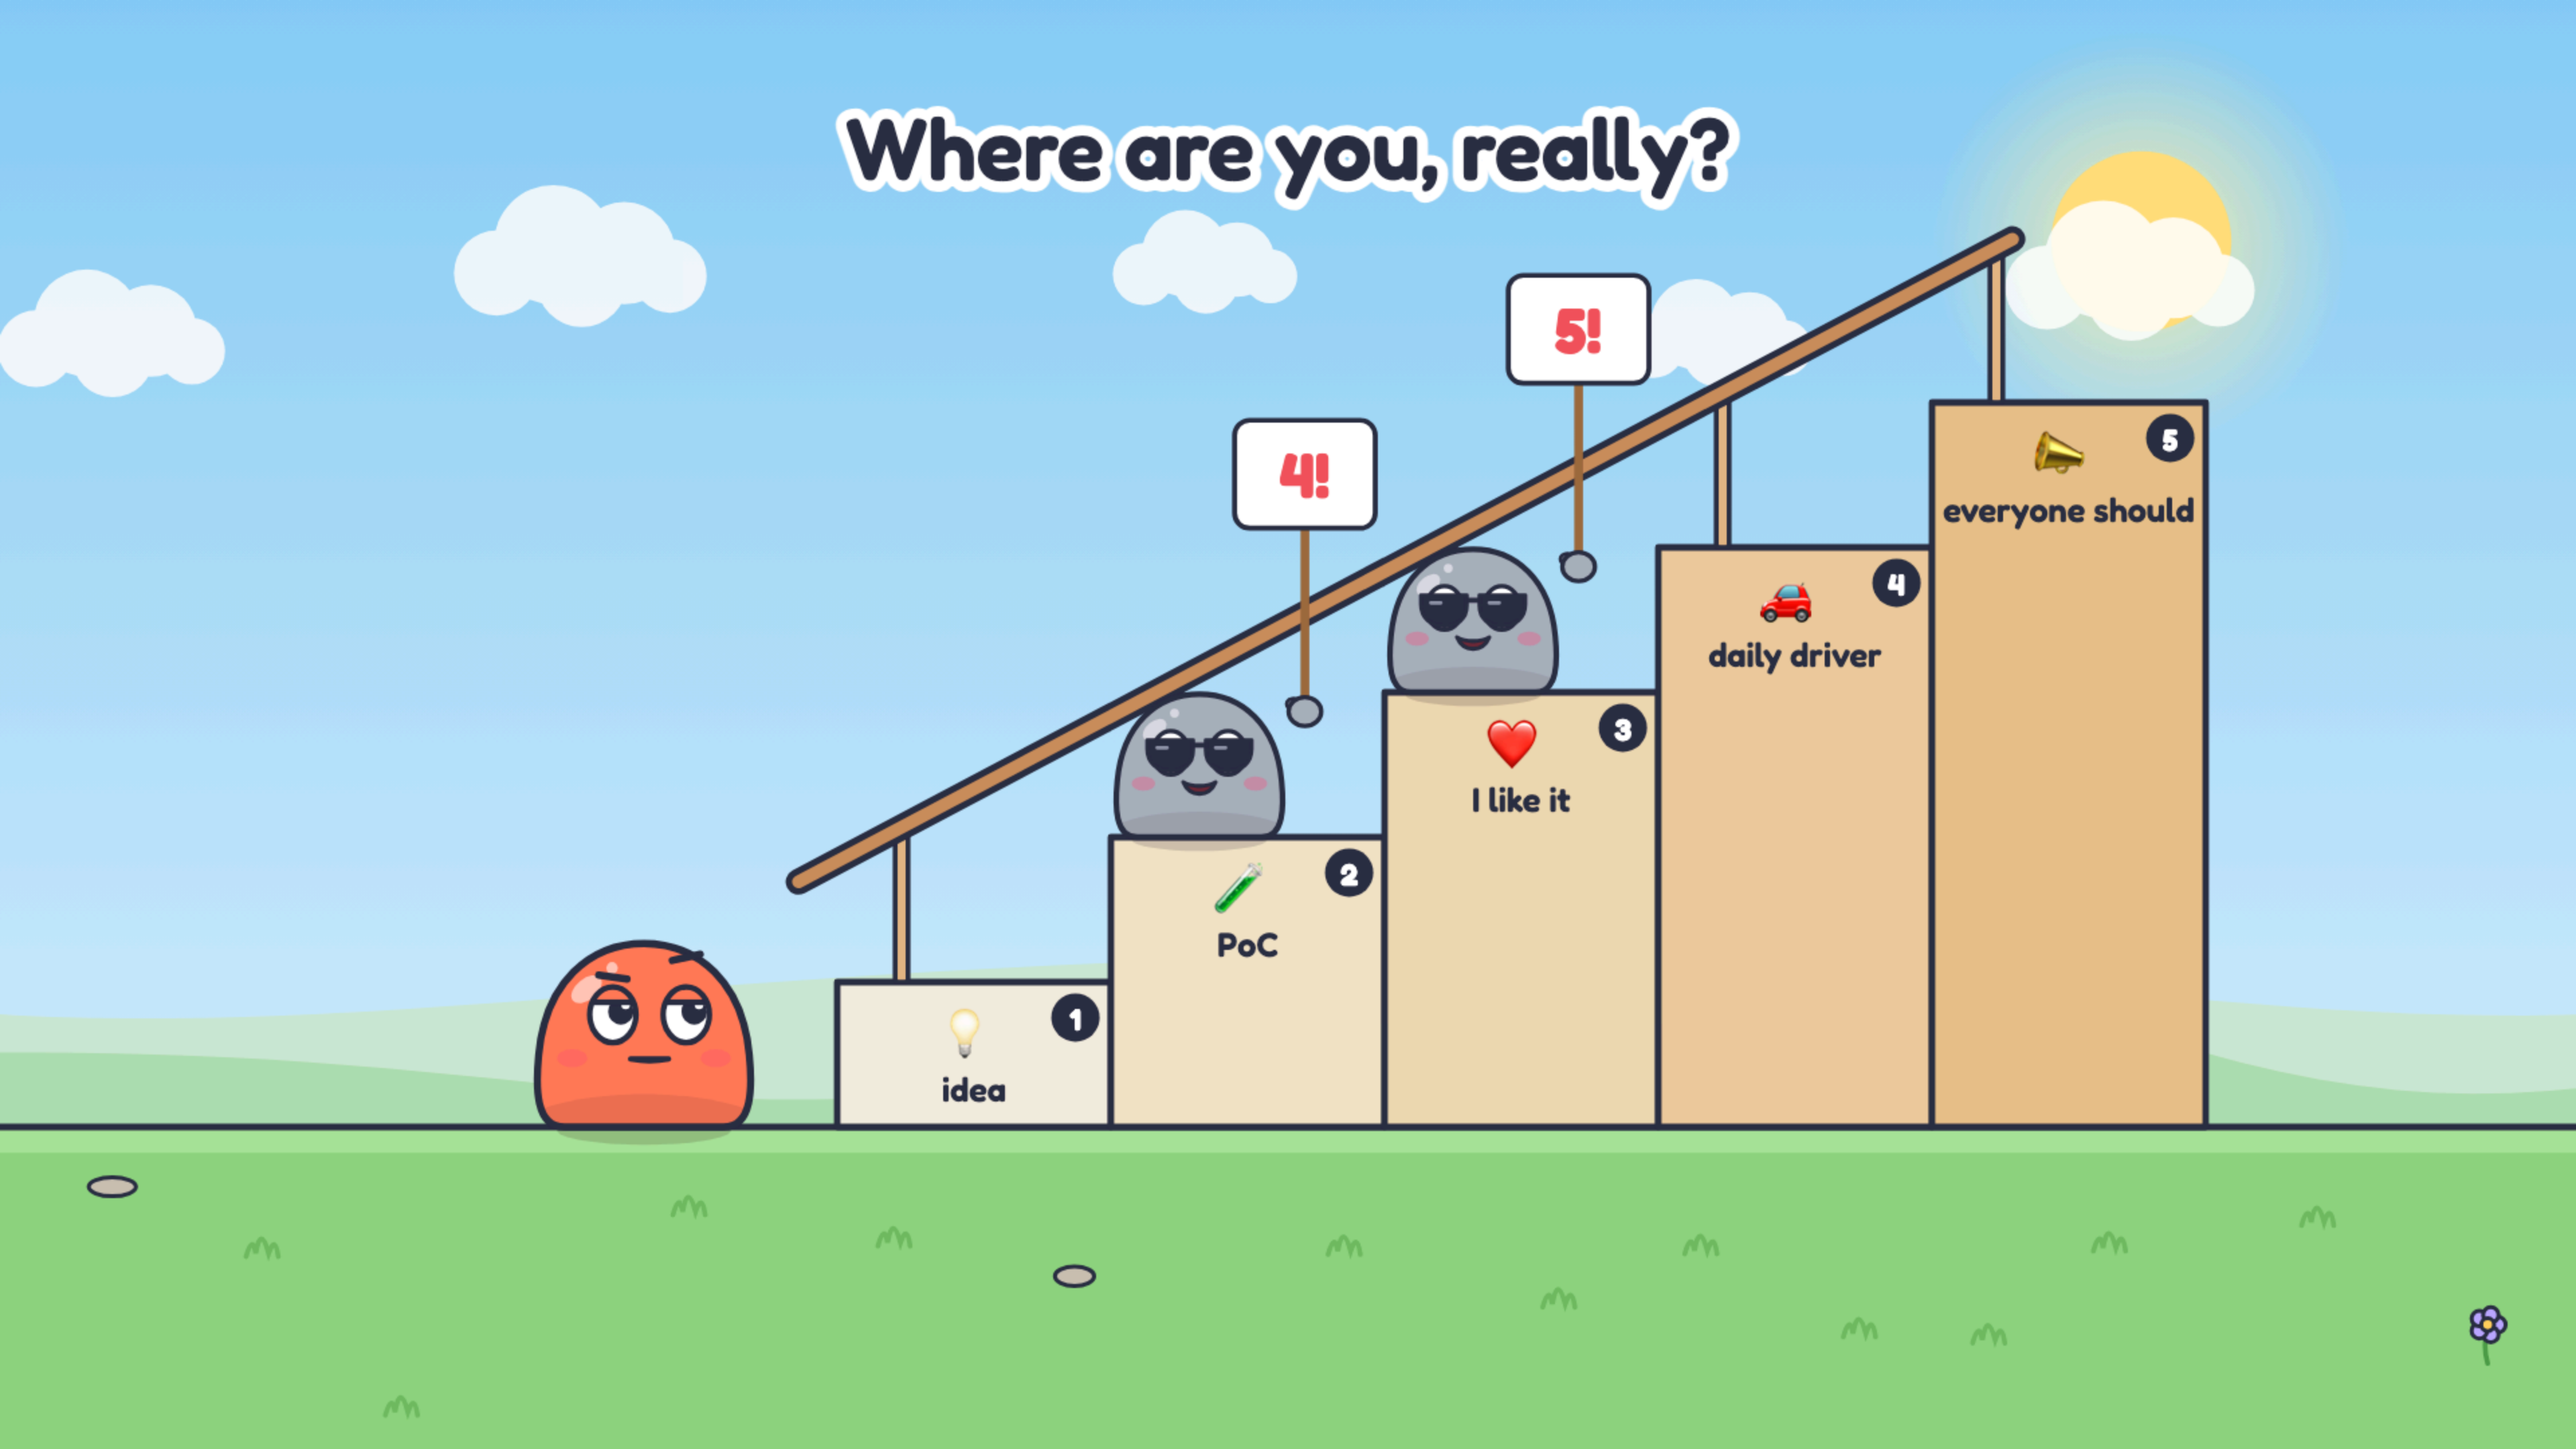

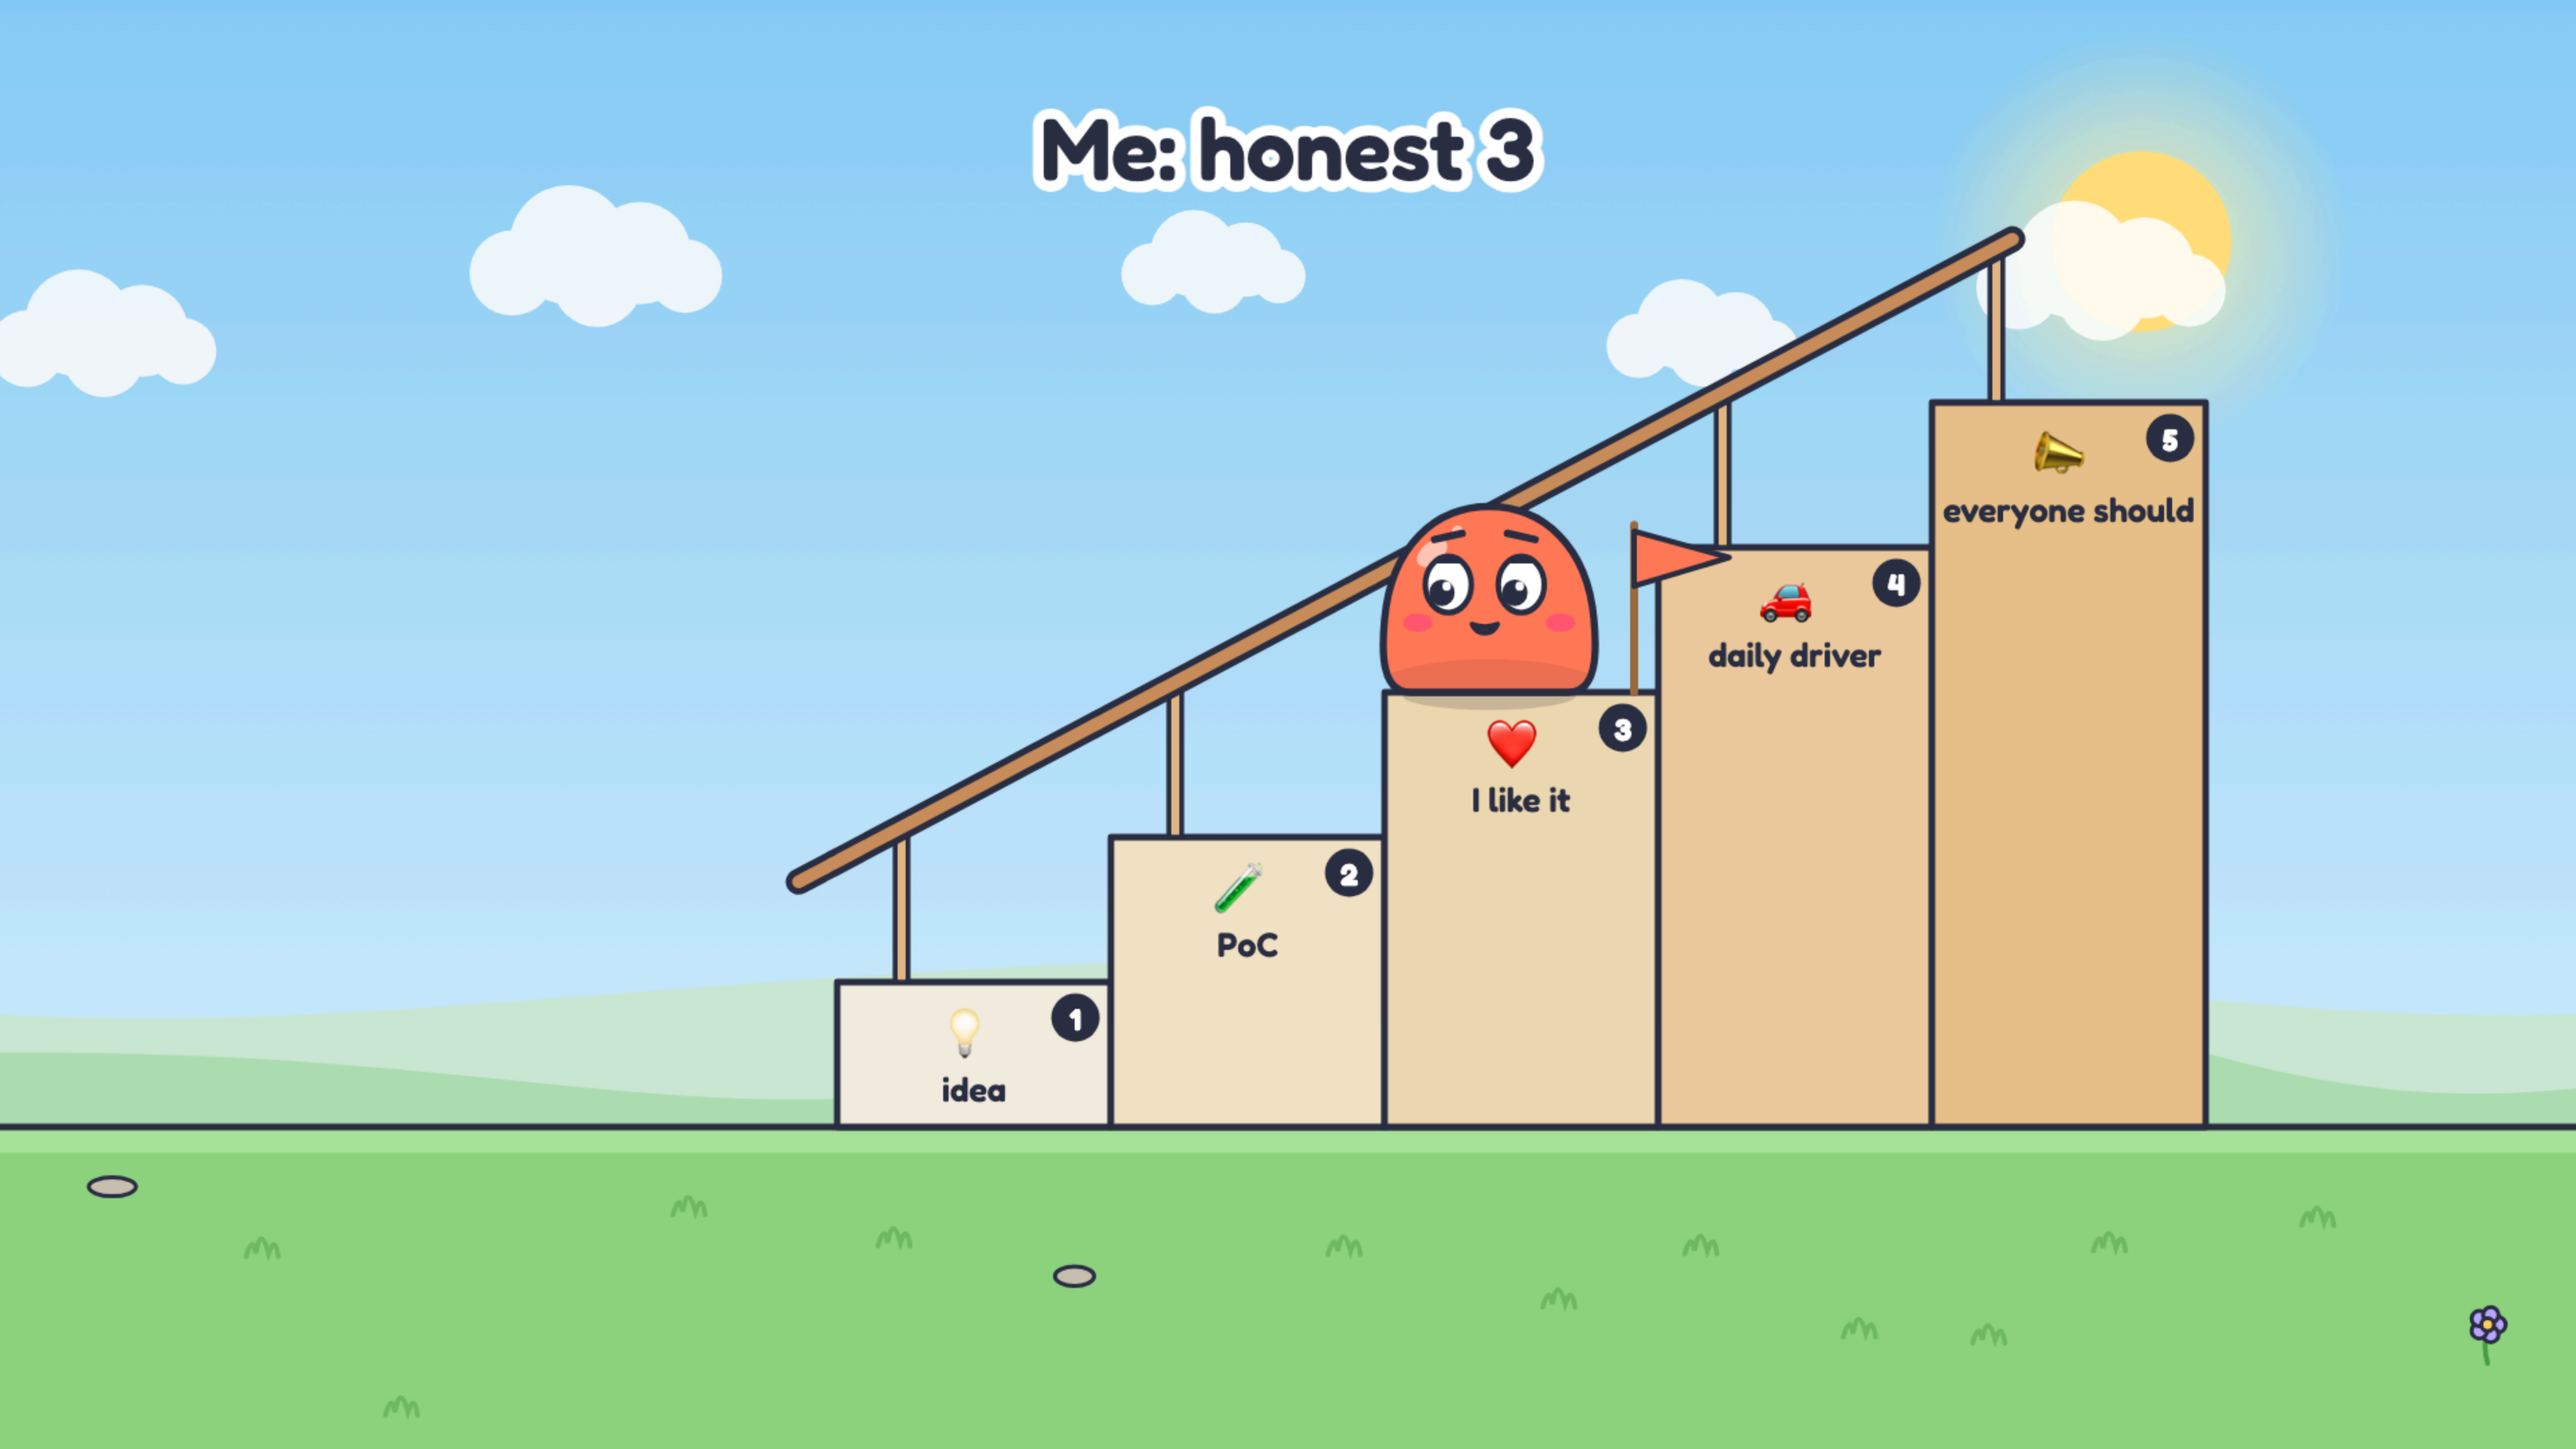

Software factories

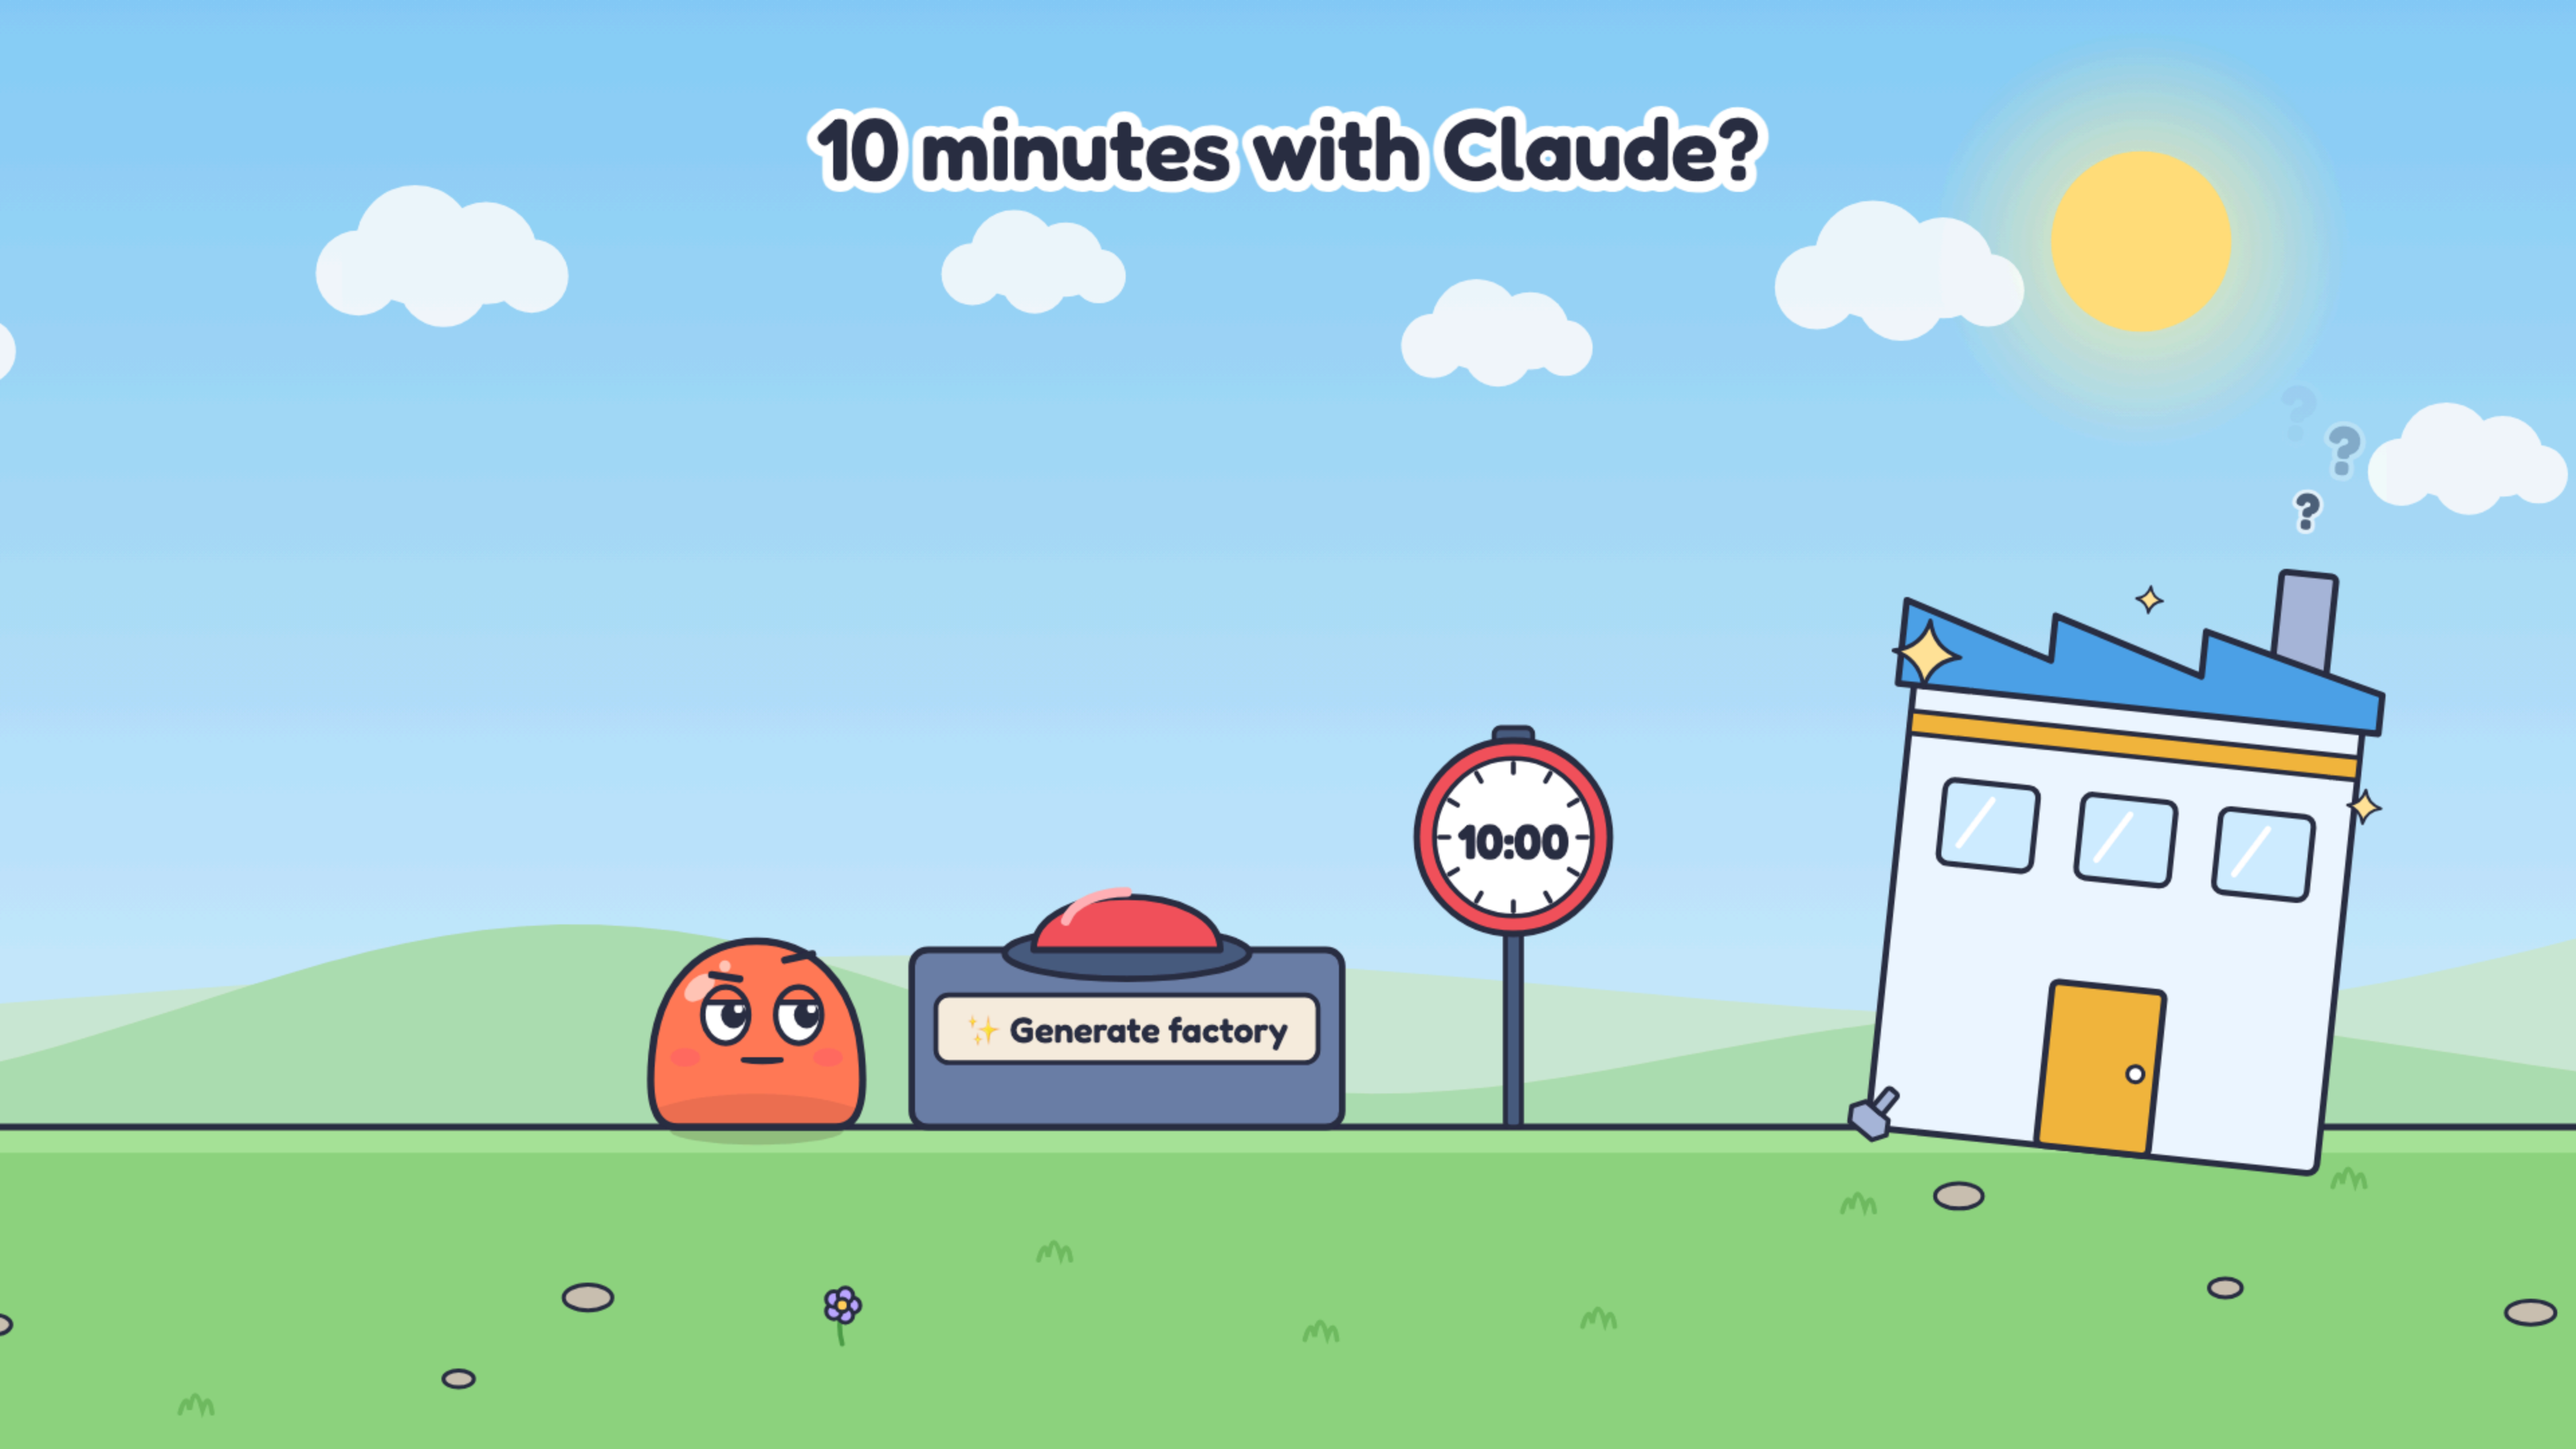

Built to last
NEW
new features
final quality
long-lived
evolving
Chores
Migrations
Slack → PR
DARK FACTORY

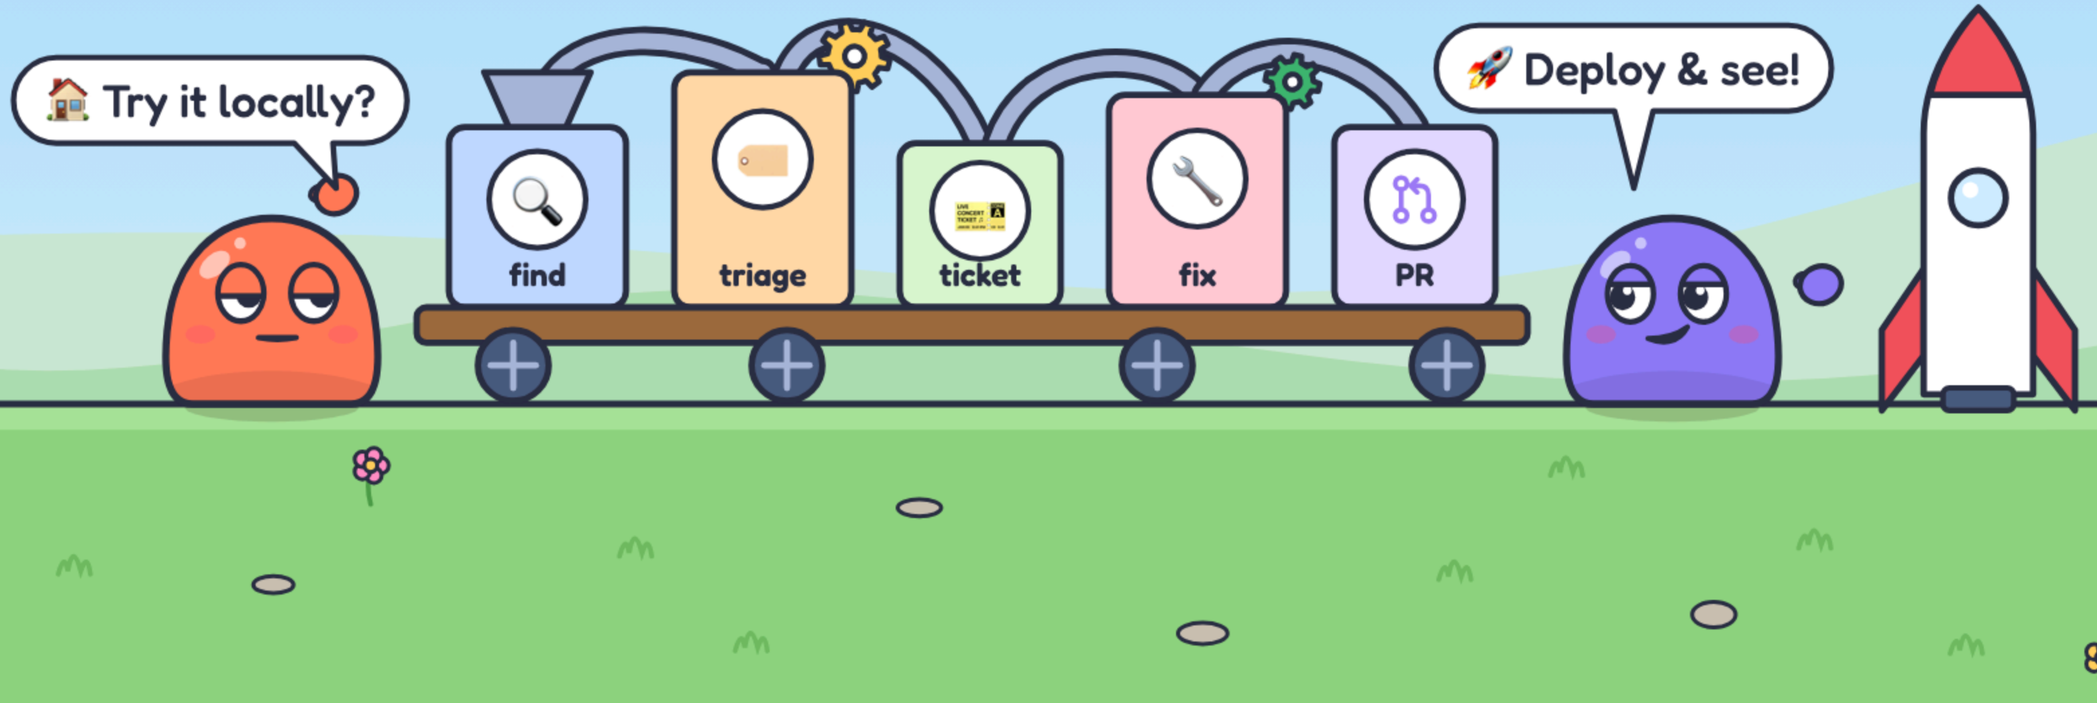

Not dark. Dim.
Slack → PR
DIM
~~DARK~~ FACTORY

Where are you, really?
5!
4!

app test
PR
RUN

Finish by hand. Improve next time.

Watch the trend

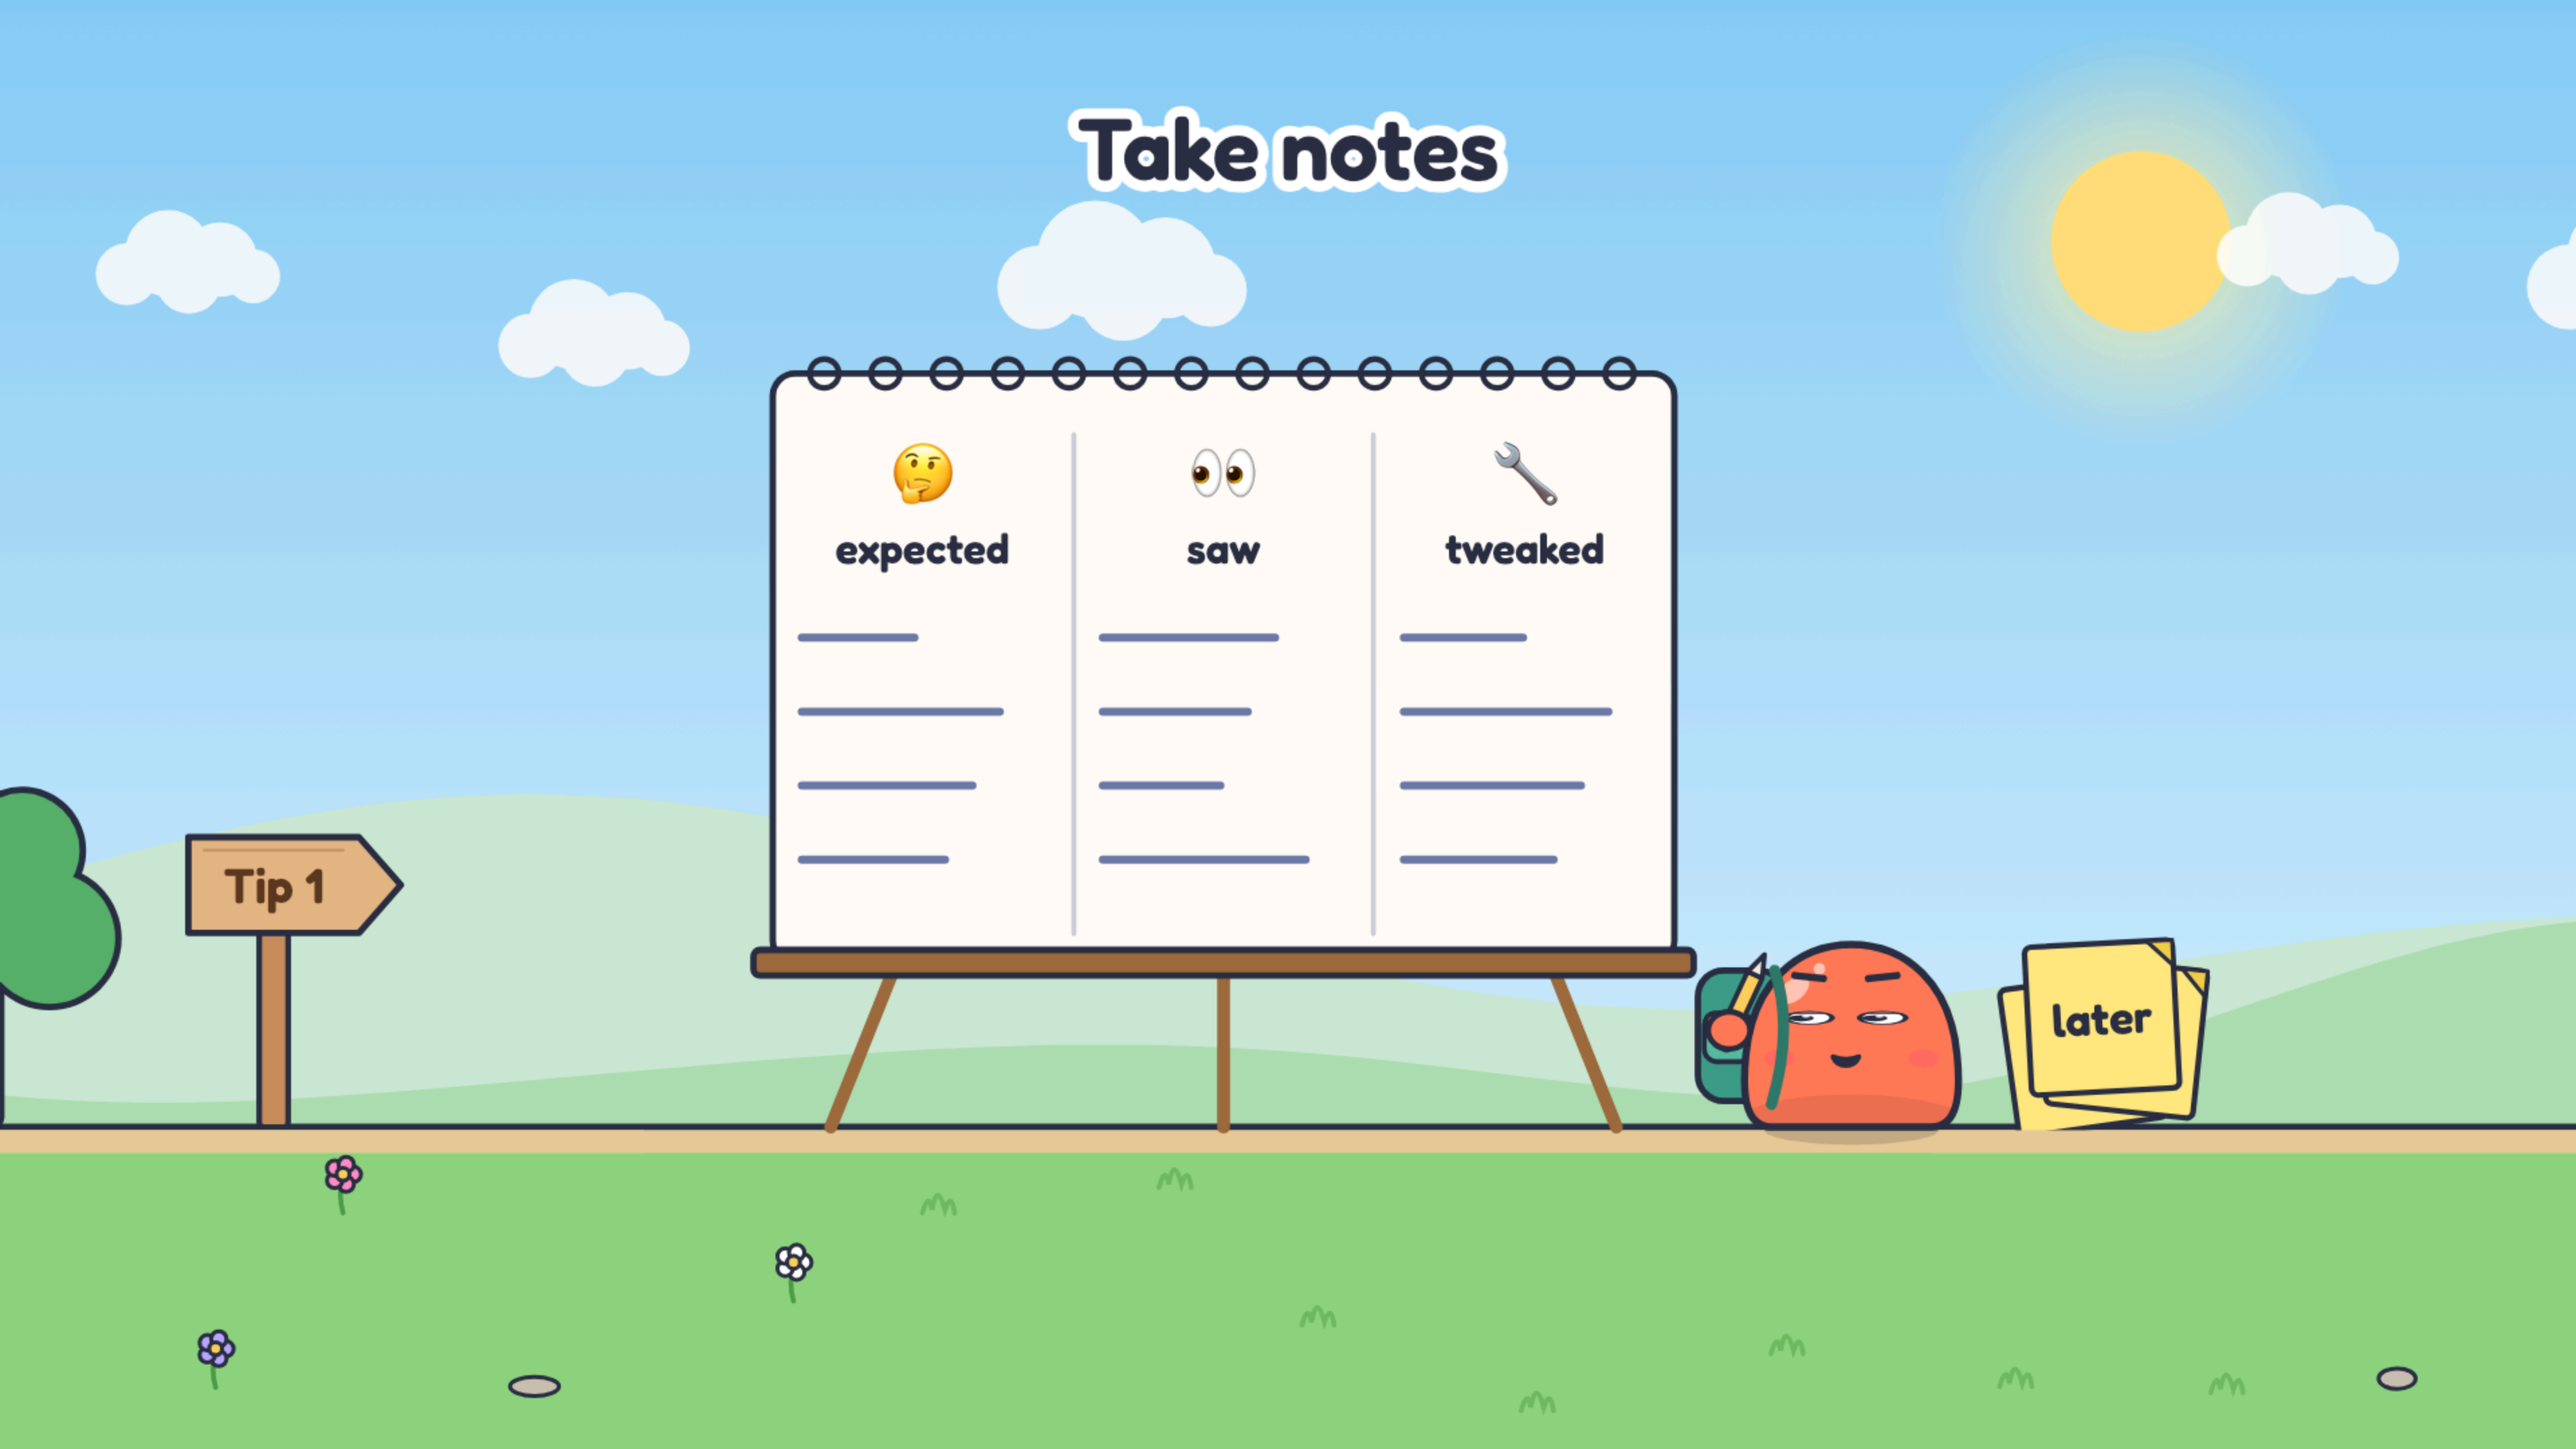

Ticket in. Merge-ready PR out.

Part 2
Practical tips

Take notes

Get a foreman agent

AI reviews. You edit.

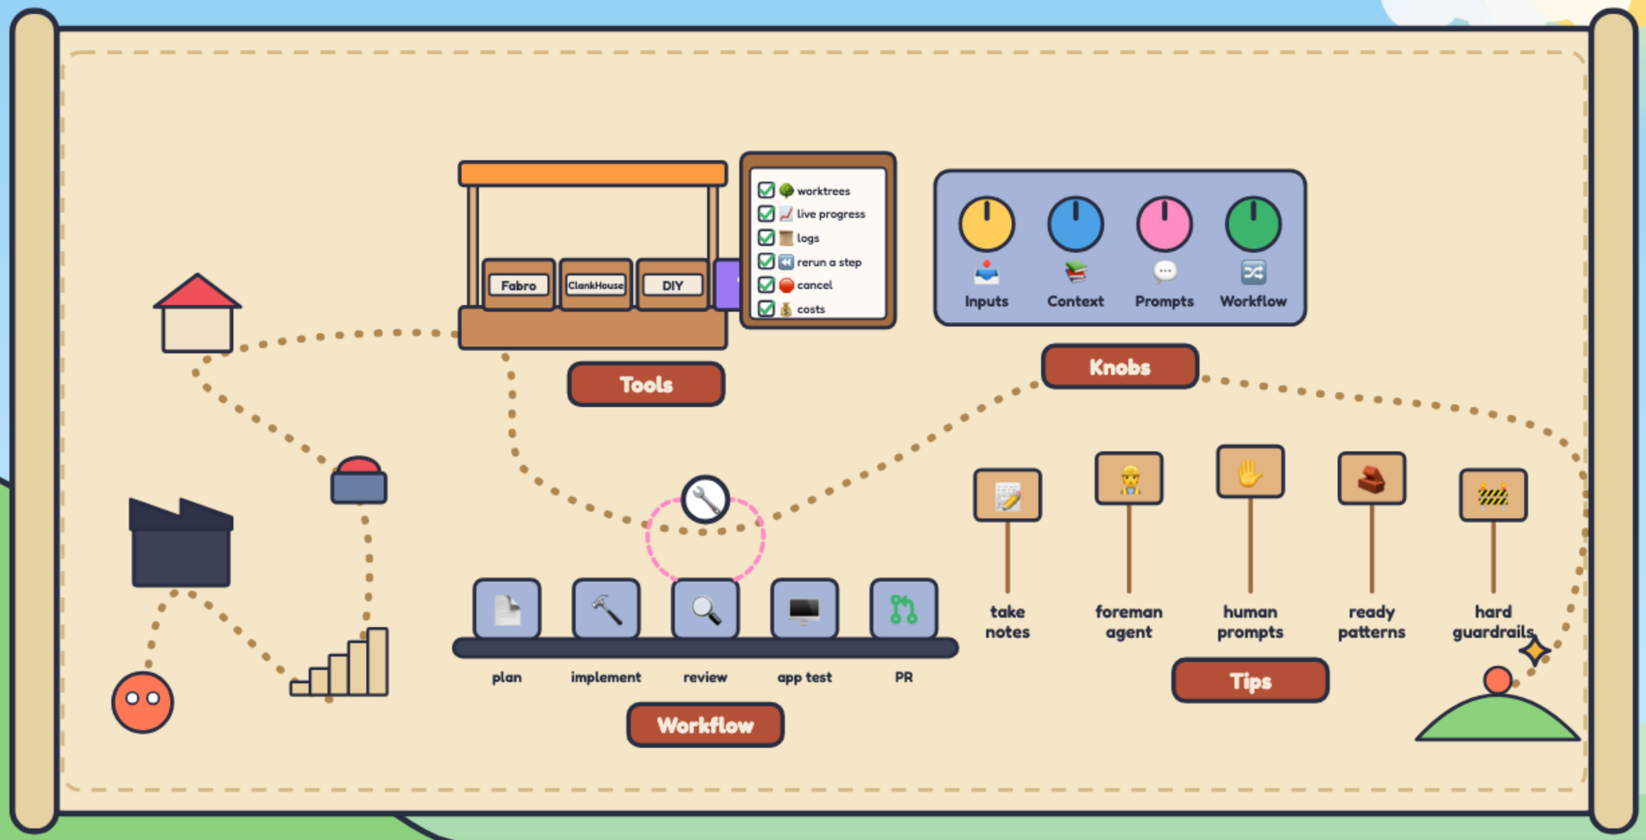

Lay the patterns

Deterministic guardrails
